Summary

Full Stack Developer with technical training in Information Technology (SENAC) and 4 semesters of Systems Analysis and Development (FACENS), with a foundation in Java, JavaScript, HTML, CSS and MySQL. Seeking my first opportunity as a Junior Full Stack Developer. I have corporate experience at Transportadora Giacchero and Toyota do Brasil, working with data analysis, reporting, system implementation and operation, and continuous improvement. I also maintain a personal portfolio published on GitHub Pages.

Projects

Personal Portfolio | *HTML, CSS, JavaScript*
Personal website built from scratch and individually, with a fully responsive layout and published via GitHub Pages. It includes an introduction, a downloadable resume, projects and studies. Uses Particles.js for particle animations, and Lucide Icons and DevIcon for technology icons. Continuously updated with new projects.
Website: otavioinacio.github.io/portfolio | GitHub: github.com/OtavioInacio

Skills and Languages

Languages and technologies: Java, JavaScript, HTML, CSS, MySQL
Academic knowledge: Python, C#, React, Node.js
Tools: Git/GitHub, Power BI, Excel, SAP Ariba, OutSystems, SODEP
Languages: Portuguese (native); English (intermediate, B1): reading, writing and speaking

Experience

Transportadora Giacchero LTDA | *Administrative Assistant* | *Sep/2025 – May/2026*

- **System Implementation:** took part in the rollout of the SODEP system, helping to structure processes and analyze operational data.
- **Data Analysis:** built productivity reports to support decision-making and track operational indicators.
- **Process Optimization:** developed and maintained spreadsheets for data control, reducing inconsistencies.
- **Cross-Department Communication:** acted as the link between departments to keep administrative processes fast and accurate.

Toyota do Brasil | *Administrative Assistant (Young Apprentice) – Purchasing Department* | *Jan/2024 – Jun/2025*

- **Systems Operation:** used SAP Ariba and OutSystems for parts requisition and for managing materials and services.
- **Data Analysis:** managed internal data in Excel, consolidated in Power BI dashboards, and prepared weekly and monthly reports.
- **Agile Culture:** continuous improvement initiatives using Lean, Kaizen and 5S methodologies.
- **Follow-up:** supplier management and direct communication with multiple factory departments.

MIPHONE | *Technical Assistant* | *Oct/2019 – Sep/2022*

- **Hardware Support:** maintenance and diagnosis of smartphones, video game consoles and computers.
- **Service Management:** customer service and organization of service orders.
